PROGRAMME PROJECT REPORT

A. Programme Mission and Objective

Mission Statement

The primary aim of the three-year multi-disciplinary programme is to equip the learners with critical thinking, creative mindset, employability skills and ethical values to facilitate their holistic development. The research-integrated curriculum coupled with the skill-oriented training will give new lens to their perspectives. It will endow them with the faculties to take on challenges with wisdom and sensibility and hence, emerge as leaders in their respective fields. The programme is in line with the international standards where learners are offered a wide range of learning experiences with a strong foundation in their disciplines.

Objectives of the Programme

The programme has been framed to achieve the following objectives:

1. To provide interdisciplinary approach to learning.
2. To prepare the learners to examine ideas from multiple points of view.
3. To encourage them to think outside a narrow focus and come up with offbeat solutions.
4. To teach critical and innovative thinking skills.
5. To arm the learners with the abilities and skills that the employers value most.
6. To enable them to make creative use of information and ideas.
7. To make them aware of their cultural ethos and social responsibilities.
8. To enable them to take intellectual risks and to think laterally.
9. To make them understand how the humanities, the arts and the sciences inform, enrich and affect one another.

B. The Relevance of the Programme with HEI's Mission and Goals

The university is embracing a Bachelor of Arts programme to equip the learners with a skill set that is valued most by the employers not only on the home turf but in the overseas market too. Along with the core disciplines, with an emphasis on critical thinking, communication, creative problem solving, self-expression and innovative research, the three-year undergraduate programme will make an attempt to polish the learners to become great assets for any nation. Since the programme integrates the theoretical foundation with the practical skills for the learners, it will enable the learners to become competent enough to successfully deal with the challenges they may encounter in their personal, professional and social spheres of life. In fact, the course can play an important role in enabling the learners to carve out better professional prospects and socio-economic opportunities for themselves. The easy accessibility and the cost-effectiveness of the deliberately designed course will make it furthermore convenient for the large segments of the population to take advantage of it.

C. Nature of Prospective Target Group of Learners

The course seeks to provide academic continuity to its participants and shall facilitate continuous professional development for the employees and entrepreneurs across the country and Punjab state, in particular. Therefore, a candidate who has passed 10+2 in any stream(arts, humanities and sciences)of any discipline and who wishes to improve his/her knowledge, skills, employability and self-entrepreneurship ability may join this course.

D. Appropriateness of Programme

The course aims to reach the learners who are distant and those lacking access. Hence, the courses' instructions and specially prepared study material in the form of printed notes and audio-video lessons will be delivered at the doorsteps of its participants through postal correspondence and digital media like e-mail, website etc. Limited face to face contact sessions will be held at the study centres set up by the university as close as possible to the learner's home. Communication with the university and interaction between the teacher and the learners will be further facilitated using electronic media options like telephone, e-mails, chat sessions, videoconferencing and teleconferencing, if and when required. All of these characteristics will help learners to engage in relevant, purposeful and interesting lessons, while remaining safe from the contagion.

E. Instructional Design

The Bachelor of Arts, a choice-based credit programme, is a blend of disciplinary, interdisciplinary and skill-based courses. It is designed to provide the learners with the information and skills necessary to understand and analyse their world by introducing them to the main themes and topics of disciplines in Humanities, Social Sciences and Sciences. The Programme Code of this Bachelor of Arts is BAB3JGN. The programme has a number of disciplines and courses from different Schools of Studies.

The following disciplines are part of the programme this academic session (2024-2025):

- 1) Economics
- 2) English Elective
- 3) History
- 4) Political Science
- 5) Sociology
- 6) Religious Studies

Basic Structure: Distribution of Courses				
Sr. No	Course Name	No. of Papers	Credits Per Paper	Total Credits
1	Core Courses (CCs)	12	6	72
2	Discipline Specific Elective Courses (DSEs)	4	6	24
3	Ability Enhancement Compulsory Courses (AECCs)	2	4	8
4	Skill Enhancement Elective Courses(SECs)	4	4	16
5	Generic Elective Courses (GEs)	2	6	12
6	Compulsory Non-Credit Qualifying Courses	3	-----	-----
	Total	27		132

The programme can be completed by earning the required number of credits under each category in a minimum period of three years (six semesters) or in the maximum period of six years. The required number of credits under each category is as follows: 72 credits of Core Courses, 24 credits of Discipline Specific Electives, 8 credits of Ability Enhancement Compulsory Courses, 16 credits of Skill Enhancement Courses, and 12 credits of Generic Electives.

Apart from this, the programme includes three non-credit yet compulsory qualifying courses: Sikh Heritage and Ethos, Human Rights, Drug Abuse: Problem, Prevention and Management in the first three semesters respectively. Sikh Heritage and Ethos will be taught in the first semester to familiarize the learners with the Sikh theology, rich culture and ethos of Punjab. In order to bring awareness in the learners about the human rights and to sensitise them with the social issues like drug abuse, the learners will be introduced to the subjects titled Human Rights and Duties; and Drug Abuse: Problem, Prevention and Management in the subsequent semesters i.e., second and third semester, as per the official guidelines issued.

Credit:

A credit is equivalent to 30 hours of study time comprising all learning activities (i.e. reading and comprehending the print material, listening to audios, watching videos, attending counselling sessions, teleconferencing and writing assignment responses). Most courses of this programme (CCs, DSEs and GEs) are of six credits. This means that a candidate will have to put in 180 hours (6 x 30) of study time to complete each of these courses. The programme also has six Ability and Skill Enhancement courses, each of four credit weightage i.e., 120 hours (4 x 30) of study time.

******These are compulsory non-credit qualifying papers. Though they are non-credit courses, it is important for a learner to qualify them failing which the degree will not be awarded.

The specific components of the programme, i.e. Core, Elective, Ability Enhancement, Skill Enhancement and Generic Elective Courses are discussed below:

Core Courses (CC)

The programme has twelve core courses, four in languages and four each in the two disciplines chosen to study. These courses which are on offer in the first four semesters of the programme are aimed at building a strong foundation in humanities and social sciences by introducing the learners to language and literature (in English and Punjabi to begin with) and the disciplines in humanities and social sciences. Each core course is of six credits. These courses cover more than half of the programme, 72 credits (12 courses x 6 credits) out of 132 credits of the programme.

There is a language core course in each of the first four semesters of the programme. The courses that are currently on offer are given below in Table 1.3

Table 1.3 Core Courses: CC (Languages)

Language	First Semester	Second Semester
Punjabi	PC1B31106T: Punjabi Compulsory-1	
English	-----	EC1B31206T: English Compulsory-1
	Third Semester	Fourth Semester
Punjabi	PC2B32306T: Punjabi Compulsory-II	
English	-----	EC2B32406T: English Compulsory-II

In addition to the compulsory language core courses, a learner has to choose any two disciplines from the list of eight offered by the university. Currently, Economics, English Elective, History, Political Science and Sociology and Religious Studies disciplines of the School of Social Science and Liberal Arts and the School of Languages are part of the BA programme. It is important to note here that the two disciplines opted to study in the first semester of the programme will have to be studied in the subsequent semesters of the programme to complete the required number of Core and Discipline Specific Elective courses of the BA programme. One cannot change the disciplines of study in the second or third year of the programme.

Discipline Specific Elective Courses (DSEs):

Discipline Specific Elective Courses are on offer in the fifth and sixth semesters of the programme. These six credit courses are intra-disciplinary in nature. The Discipline Specific Electives (DSEs) are specific (or specialised or advanced or supportive) to the discipline or subject of study. They provide an extended scope. The programme has four DSEs, two from each of the two disciplines that one has opted to study. They carry 24 credits (2+2 courses x 6 credits). The DSEs on offer in the fifth and sixth semesters are given in Table 1.5 below:

Ability Enhancement Compulsory Courses (AECCs)

Ability Enhancement Compulsory Courses are of four credits each. As the name suggests, the Ability Enhancement Compulsory Courses (AECCs) are compulsory for all learners. There are two AECCs on offer, one each in the first and second semesters. The first AECC is an awareness course which is intended to sensitize the learners with environmental issues and introduce them to the policies and practices put in place to address environmental concerns at the local, national and global level.

The other AECC, available in the second semester is Effective Communication in

English. These courses introduce the learners to the theory, fundamentals and tools of communication and develop in them vital communication skills which should be integral to personal, social and professional interactions.

Skill Enhancement Courses (SECs)

Skill Enhancement Courses (SECs) are also ability enhancement courses. These courses seek to build specific skills set in some applied functional area of daily life. Each Skill Enhancement Course (SEC) is of four credits. These courses are on offer from the third semester onwards. A number of SECs are on offer in each semester. The learner will have to opt for only one SEC each semester from the common pool. SECs that are available from the common pool in each semester are given in Table 1.6 below:

Generic Electives (GEs)

Generic Electives (GEs) are the other type of electives that are on offer in the fifth and sixth semesters of the programme. These courses are inter-disciplinary in nature. They provide an exposure to other disciplines/subjects nurturing the proficiency and understanding of social, literary, cultural and scientific phenomena. A learner can choose any one Generic Elective from the common pool of GEs that are available in each semester, but it must be different from his/her own core and elective courses.

The Elective and Skill Enhancement courses that are listed in this programme guide are the ones that are currently available. The University will be adding new electives (Discipline Specific and Generic) and Skill Enhancement courses from time to time and these will be listed on the University website. One can choose them at the time of re-registration for the second or third year.

Medium of Examination: English and Punjabi

F. Procedure for admissions and curriculum transaction

Admission Procedure: Notifications regarding admission will be published in the leading national and regional newspapers. In addition to this, all the required information will be updated regularly on the university website.

Eligibility: (10+2) or its equivalent are eligible to apply.

Instructional Delivery Mechanisms: The course has been programmed with the aim to reach the distant and those lacking access to regular mode of education. The courses' instructions and specially prepared study material will be made available through study centres and digital media like e-mail, website etc. Limited face to face contact sessions will be held at the study centers set up by the university as close as possible to the learner's home. Communication with the university and interaction between the teacher and the learners will be further facilitated using electronic media options like telephone, e-mails, chat sessions, videoconferencing and teleconferencing, if and when required.

Besides this, Counseling Sessions will be held at all the study centres regularly during weekends. The university will also conduct live/virtual classes for learners using modern ICT methods. However, to ensure learner participation and interaction, online classes will be blended with face to face discussions and meetings with the learners.

G. Evaluation

The learners' progress is measured through the means of continuous evaluation and end semester examinations.

1. Continuous Internal assessment through assignments:

Assignments help the learners to recapitulate the theory and go back to the text again in case they are unable to answer a particular question. Thus, assignments also help to reinforce learning in distance and open learning system of education. The assignments will consist of a set of questions and activities that have to be answered by

the programme participants by remaining at their own place.

Two assignments will be submitted for a 4-credit course and three assignments will be submitted by the learner for a 6-credit course. The assignments will cover all or any types of questions (long answer type, short answer type, objective type, multiple choice questions and case studies).

Learners will be required to obtain thirty percent marks as pass percentage in each assignment separately. Each assignment will carry 100 marks. In the final result, assignments will carry thirty percent weightage.

2. Semester End Examination:

Semester end examination is the major component of the evaluation system and carries seventy percent weightage in the final result. The University will conduct end semester examination twice a year i.e., in June and in December. The learners can take the examination only after the completion of the course, failing which they can take the same in December or June of subsequent years but within the total span of the programme. In case any student fails to get a pass score in the semester end examination, they will be eligible to reappear in the next semester end examination for that course as and when it is held but within the total span of the programme only.

In order to claim Bachelor Degree, Bachelor of Arts (BA), the learner is required to score at least 40% marks in both continuous evaluation (i.e. in assignments) as well as in semester end examinations separately. Besides, at least 40% marks in each course is required in the overall computation.

Updated Notification for the Learners: The information regarding the university policies and procedures, academic activities like assignment submissions, question papers, results and other notices related to examination and evaluation will be uploaded on the official website of the university.

H. Requirement of the Laboratory Support

Laboratory: The facility of laboratories for the respective subjects, If needed, will be provided in the study centres.

I. Requirement of the Library

Library: The learners may avail the library facilities at their study centres.

J. Cost estimate of the Programme and the Provisions:

Cost of the programme will be as per the fee decided upon.

Financial Assistance: At present, no financial assistance is provided for this course.

K. Quality Assurance Mechanism

The university has constituted Centre for Internal Quality Assurance (CIQA) as per UGC (Open and Distance Learning) Regulations, 2017.

L. Expected programme outcomes:

By the end of the course, the programme participants should be able to:

1. Examine ideas from multiple points of view and use interdisciplinary approach to learning.
2. Think outside a narrow focus and come up with offbeat solutions.
3. Use critical and innovative thinking skills in dealing with issues of local, national and international importance.
4. Equip themselves with the skills that employers value most
5. Make creative use of information and ideas.
6. Become aware of their cultural ethos and social responsibilities.
7. Take intellectual risks and to think laterally.
8. Understand the symbiotic relationship of humanities, arts and sciences in leading a progressive life.
